Excellence In Design awards honor the best in metal buildings

These are NOT your father's metal buildings

Every year American Buildings Company recognizes the best in metal buildings construction. These buildings are definitely not the post-World War II buildings that are often associated with metal building construction. As an ABC authorized Builder, we can design and build almost any type of structure that will be as aesthetically pleasing as it is functional. Our buildings, like these, enhance the communities around them with quality, well-built, beautiful designs that are on-par with these Excellence in Design award winners.

**EXCELLENCE IN DESIGN
BUILDING CATEGORIES**

From farms to urban office complexes; from schools to retail shopping centers, American Buildings Company engineering and design make it easy for us to create your own award-winning building. Economical. Energy-efficient. Beautiful. Build your next building with us and ABC.
