

## Welded Clips to Replace Bolted

### Welded Clips to Replace Bolted

Effective immediately ABC West will be detailing and manufacturing buildings with welded clips and inverted girts.

#### Welded Clips Advantages

- Fewer parts to manage on a jobsite
- Saves erection time associated with clip installation
- More economical purlin design since gauges don't have to be increased for web crippling
- No bolted anti-roll clips required

#### Inverted Girts Advantages

- Eliminates the need for a costly double ended bolt
- OSHA compliant in regard to girt connections
